

APDT Rally Obedience Exercise Modification Form

Instructions: Exhibitors shall submit completed Exercise Modification form to the Desk Steward prior to the start of the class if the dog's or handler's disability prevents the team from performing any exercise as described. The modification should approximate, as closely as possible, the original course exercise; the modification must not be a request for leniency in judging. All exercises on the course must be completed.

Approval of the Exercise Modification is at the discretion of the Judge; all APDT Rally teams, including teams requesting exercise modifications, will be judged in accordance with the current rules and regulations. Any dog that appears in pain, discomfort, or lame must be excused by the Judge.
